Professional Summary

Computer Science student with strong foundations in Java, Kotlin, Data Structures, and Object-Oriented Programming. Experienced in building mobile and web applications using Android, Jetpack Compose, and React Native, with practical experience in APIs, databases, and modern application development.

Education

MIT School of Computing (MIT-ADT University), Pune *2023 – 2027*

B.Tech in Computer Science & Engineering ***CGPA: 8.92 / 10.0***

Experience

Android Development Intern – Prodigy Infotech (Remote) *Jun 2025 – Jul 2025*

- Built Android applications using Kotlin and modern Android development practices.
- Implemented UI screens, local data storage, and application logic while working within project deadlines.

Skills

Languages: Java, Kotlin, JavaScript, Python, SQL
Mobile Development: Android, Jetpack Compose, React Native
Web Development: React, Next.js, Tailwind CSS
Backend & Databases: Node.js, Firebase, Supabase, PostgreSQL
Tools: Git, GitHub, Android Studio, VS Code

Projects

DabbaMe – Meal Subscription Platform (Play Store) *2026*

- Took over an existing React Native app and implemented a major UI and architecture redesign.
- Redesigned core application workflows and implemented business logic for production use.
- Released the redesigned app on Google Play Store; 500+ downloads.

LazyNotes – Notes and To-Do (Play Store) *2025*

- Published a notes and task management app using Kotlin, Jetpack Compose, MVVM, and Room.
- Implemented offline data persistence, task management, reminders, and modern Android UI.

Axcen – Developer Project Management Platform (Live Demo) *2026*

- Built a developer-focused platform using Next.js, React, TypeScript, PostgreSQL, and Prisma with GitHub integration.
- Added repository analysis, project visualization, task management, and team collaboration features.

Katai – AI PDF Chat Application *2026*

- Built an Android AI PDF chat app using Kotlin and Jetpack Compose.
- Implemented PDF extraction, multi-chat sessions, and AI API integration using PDFBox and Retrofit.

Achievements

- **Winner** – SIH Internal Hackathon (2026), 1st Place in the Miscellaneous Category – DabbaMe
- **Runner-Up** – IEEE Maharashtra Section EIG Entrepreneurship & Innovation Fellowship (2026)
- **1st Place** – Astech Competition, MIT ADT, ShortTech Category
- **iStyleAR**: AI-Based Virtual Try-On System – IJRASET (2025)

Certifications

Android Basics (Google) Android Internship Completion Advanced Java (Coursera)
